November 28 1911 Hospital.
149 Giudecca
Venezia

Dear Charlie
I was over to see the Dr Yesterday and he gave me a thorough examination he said the glands are normal and healthy again and I can leave the Hospital when I like I will leave in a few days and go into a pension get a warm room and finish and get some of the Sketches into shape. ~~so there will~~ so there will be no afterthought. He said I was a tough beggar to kill he says every function is healthy and normal. I will let you know as soon as I change my address. and now I am getting the poison out of my veins old blood running through my veins.
