 Dear Charlie
 I was over to see the
 Dr. yesterday and he gave me
 a thorough examination he said
 the glands are normal and
 healthy again and I can
 leave the Hospital when I like
 I will leave in a few days and
 go into a pension get a warm
 room and finish and get some
 of the sketches into shape. ~~so there~~
~~well~~ so they will be no
 operation. He said I was a
 tough beggar to kill it and
 every function is healthy and
 normal. I will let you know
 as soon as I change my address.
 and now I am feeling the same
 old blood running through my veins
